Fast Meeting Votes \$3,032,584

One of the most peaceful — and briefest — town meetings in recent history took just three hours and 55 minutes last Saturday to

approve spending \$3,032,584.57. By following the recommendations of the Finance Committee in all cases, the 1,003 voters attending the session apparently assured retaining the \$26 tax rate for 1959. The FinCom had stated that this would be probable, only if all its recommendations were followed.

In capsule form, voters approved

\$2,732,584.57 in budgets and \$302,000 for special articles. The latter came from free cash, thus not affecting the tax rate.

Included in the budget figures was \$13,000 for a 2½ percent pay raise and \$20,000 for insurance premiums approved at the town election.

The only other changes in recommended budget figures were minor, resulting from several small, unpaid bills submitted for payment after the deadline for paying 1958 obligations.

Mother Nature Beaten Again

Mother Nature did her best to undermine a wall in Rogers Brook, during last Friday's heavy rain, but the town's highway department beat back the threat.

Supt. Stanley Chlebowski said the water began to eat away the stone wall on Brook st., near the mouth of the pipe. A hole about eight by ten feet was washed out, threatening the loss of the wall and subsequent plugging of the pipe carrying the storm water.

The last time the pipe was plugged, Chlebowski related, considerable damage resulted when the water rushed down the street, into the railroad station, and on into buildings on the down-hill side of that location.

With considerable debris washing down the stream Friday, Chlebowski said two of his men remained at the Brook st. site all night, to avoid having the pipe plugged. And when the wall began

A recount of all ballots cast in the election March 2 will be held in the town clerk's office Saturday morning at 9.

Petitions seeking the new tally in the three-year selectman's contest were filed with Town Clerk George Winslow prior to the deadline Monday afternoon at 5.

Three teams will count the ballots, to determine whether the election-night total was correct.

Although the petitions do not specify for whom the recount is requested, the closest contest was between William Stewart and former Selectman Sidney P. White, who was defeated by 11 votes.

According to Mr. Winslow, the three registrars, with three election officials, will count the votes. The town clerk will supervise the procedure.

Each candidate in the three-year contest is entitled to have three representatives at the session, one for each pair of counters.

The petitions asking for the recount were required to contain the signatures of at least 10 registered voters in each of the precincts where a recount was

To Canvass For Blood Donors

Next week Red Cross volunteers will begin a house-to-house canvass for blood donors for the bloodmobile visit of April 2 and 3 at the Free Church, from 1 to 7 p.m.

David Cutler, chairman of the blood program, has emphasized the importance of this last bloodmobile of the year for completing Andover's quota of pints, because the epidemic of colds in October reduced the expected number of pints by almost one-half. Since

The Reichhold Chemical Co. will expand its production of epoxy resins at its Lowell Junction facility this year, if Appeals Board approval is forthcoming on a petition to vary the industrial zoning by-law.

Dr. A. L. Wooten told the Townsman this week that between \$240,000 will be invested in a new plant and equipment to accomplish the production goal.

Needed first, however, is a variance of the zoning by-law which would allow the firm to build its plant closer than 400 feet to an existing dwelling, and closer than 200 feet to a lot line. Land the company has purchased adjacent to its present plant is sufficient in size to contain the new building, but not without the variance. The Appeals Board will hear the application March 19 at

8-15 in the Selectmen's office. Reichhold may also build a new central research lab in the Junction, Dr. Wooten announced. If this project is given final company approval, the first wing of a four-wing building would be constructed at a cost of approximately \$300,000. A decision on this proposal, which is now in an architect's hands, may not be made for some months.

Dr. Wooten explained that the company now does not have a central laboratory, each division operating its own lab. If the structure is built here, it could conceivably cost an eventual \$1,200,000, when all four wings are completed.

This project, Dr. Wooten said, would mean the employment of some 35-30 professional persons.

The enlarged production facility, he explained, will result in employing between 12 and 24 persons in addition to the present labor force. Reichhold now draws most of its men from the Lowell-Lawrence area, he continued, and this should be the case when the proposed expansion takes place.

Persons employed in the lab, however, might be brought in to the community, he stated. But he also pointed out that they "would be able to pay their way" in any community where they resided.

SERIO SPEAKER AT SAFETY CONFERENCE

Joseph Serio, supervisor of safety of the Merrimack Valley Works, Western Electric Company, No. Andover, will be a featured speaker at the 38th annual Massachusetts Safety Conference to be held March 16 and 17 at the Hotel Statler Hilton in Boston.

More than 3,500 businessmen and engineers are expected to be in attendance at meetings emphasizing accident prevention in industry, on the highways and at school. The Conference is sponsored by the Massachusetts Safety Council and the Safety Council of Western Massachusetts.

to wash away, sand bags, filled with sand and cement, were rushed into place.

At the Selectmen's meeting Monday night, acting town manager Victor Mill Jr. complimented Chlebowski on his quick action that prevented further destruction.

Many Washouts

Chlebowski said his department worked through Friday night and Saturday, repairing many smaller washouts caused by the heavy rains. They occurred throughout the town, as the deluge continued into the night.

Rogers Brook overflowed, causing its usual problems for homeowners. Willard Patterson of Upland rd. appeared before the Selectmen Monday night to show them pictures of the water around his yard. He had over four feet of water in the cellar, lost the use of his oil burner and found, when replacing the unit later, that the electrical system needed replacing because of the water.

TWO OFFICIALS WERE RE-ELECTED TO JOBS

Miss Anna Greeley was re-appointed town treasurer, and James Christie was re-named tax collector, at the Selectmen's meeting Monday night.

Both persons were officially appointed by acting manager Victor Mill Jr., with the approval of the Selectmen.

Andover's Seal Sale Decreased

A total of \$73,579.42 has been received by the Essex County Health Association from the sale of Christmas Seals.

At the close of February, Treasurer Charles Lowrie reported that 12 of the 30 cities and towns in the Association's district have exceeded their 1957-58 level of giving. They are Beverly, Boxford, Danvers, Hamilton-Wenham, Ipswich, Lynnfield, Marblehead, Middleton, Newbury, Peabody, Rowley and Topsfield.

Although in some communities returns came in very slowly, the Association, which depends solely on the Seal Sale for its income, is now only \$131.56 behind the total for the same date a year ago. In his report, Mr. Lowrie thanked the Christmas Seal Committees, the many volunteers, and the thousands of Christmas Seal contributors who through their loyal support have assured a continuing

TB control program throughout the Association.

The February report from all communities indicated the following total, compared with the same period last year; for Andover: \$4,089.20 this year, \$4,326.78 last year, decrease of \$239.58.

Special Reading Instruction

NEW TEACHING METHOD — These girls are studying under the reading program at Abbot Academy. Clockwise, they are Lynne Furneaux, Mary Louise Lockwood, Nathalie Taft, Margaret Elsemore, Mary Hutchins, Hannah Jopling, Miss Eisinger, Sally Barngrove and Adrienne Davis.

For the second year Abbot Academy, in stride with educational progress, has employed the services of the Reading Laboratory, Inc., of New York. This organization has sent Miss Jetta Eisinger, a reading specialist, to help students on the secondary school level to improve specific reading skills.

The course is scheduled for eight weeks, ending April 10th, and is open to students who are

average or better than average readers, according to the score they have achieved on standardized reading tests.

For five periods each week the student receives training in learning to read and comprehend at a maximum pace by being able to identify different types of words and to attack them accordingly; to recognize by the type of material how fast she should read; to understand thoroughly long-difficult reading assignments by developing the ability to pick out and assimilate important facts; and to perform to full capacity in timed reading tests. In addition to these purposes it is expected that students will be able to apply the techniques, both to their daily

textbook reading and to extra reading for recreation and background.

By no means should anyone feel that this program would be too much to carry out in addition to her academic schedule. Within a few weeks after the course has begun, the student should begin to notice that she can prepare much of her homework faster than before, thus making up for the regular study time spent in extra classes. Also, no outside homework, which might overburden the students, is given.

The opportunity to develop maximum reading skill is a valuable opportunity for those who are enrolled in this course.

ROUGH WEEK FOR ANDOVER YOUNGSTER

It has been a rough week for Weston Dean Eastman, Jr., 11, who is a patient at the Lawrence General Hospital. March 2, he fell out of a tree in Shawheen Village and was brought home in a police cruiser. He apparently suffered no ill effects although later developments indicate that he probably jarred his whole system.

Friday evening he was taken ill with a severe pain and his parents, Mr. and Mrs. Weston D. Eastman, 18 Argyle st., Shawheen Village, rushed him to the emergency ward at the Lawrence General Hospital. It was diagnosed as appendicitis and he submitted to an emergency operation at 12:45 Saturday morning.

Sunday when his parents went to visit him he had developed both mumps and tonsillitis.

He's holding his own in spite of his multiple ailments.

EDITORIAL THOUGHTS

Needed: A New Look

We were startled momentarily at town meeting, when the Taxpayers' Association took to the floor to attempt a reduction in the appropriation for the town manager.

For only last week, in this space, there was a comment that some opponents of the manager plan might attempt this very thing, under the guise of economy, in an effort to make the Selectmen's work more difficult as they screen applications for this important post.

It seems hard to believe that the Taxpayers' Association is an enemy of the manager plan, when that organization led the proponents of the charter. And we can't despite the action last Saturday, come to this conclusion.

But what does seem fairly obvious is that the Association, or at least a majority of its directors, have their eyes set so firmly on reductions in spending that they can't see the other side of the question.

Whether or not the majority of directors believe this to be true, we feel that the Association has become essentially negative. This is easy to do — it's always easier to be against something than for it, and there always are reasons against any proposal, no matter how practical it may actually be.

Based on the recommendations on several articles, as they were voiced on the floor of town meeting by the Association, and the indifferent response from the voters, perhaps the organization should re-examine its position. For whatever its own beliefs, we believe that the townspeople regard it as a negative-thinking group.

This feeling should not be allowed to persist.

For such an organization can and should occupy an important position in the community. We hope there will be constructive steps taken within the group to dispel this negative approach.

We need a constructive, positive approach to town problems within every official and unofficial organization in the community. The Taxpayers' Association should lead the way.

Sensible Approach Is Used

The level-headed approach to the management of town business at this period in the transition to town manager government deserves commendation.

The Selectmen, with acting manager Victor Mill Jr., have determined that the orderly processes of government should not be allowed to deteriorate, that departments should continue to function with the same chain of command as previously.

Important positions have been filled by re-appointment — accountant, treasurer and tax collector.

It is obvious that the Board is not trying in any way to shake the town government by its heels. Rather, every effort is being made to insure an orderly, sensible transition.

This is the way it should be, the way we felt certain it would be.

Change Appears Unlikely

Saturday's recount in the three-year contest for selectman is probably a good thing.

It should clear the air of any doubts, any suspicions that may have arisen as a result of the 11-vote margin separating candidates in the field.

There always is some suggestion, following such a close contest, that laxity prevailed in the procedure of handling the ballots. We don't believe there is, but when such stories begin to circulate, it is best to have the recount and satisfy everyone that a true count has been obtained.

We'll frankly be surprised if there is any difference in the outcome — perhaps the number of votes will change slightly, but not the winner. Yet once in a while there is the possibility of a change great enough to change the name of the winner.

The whole town will feel better once this recount is accomplished and there no longer is any doubt over the outcome.

ARMY COURSES NOW AVAILABLE

High school seniors may qualify now for U.S. Army technical schools without interrupting their studies and without obligating themselves, according to Sgt. Louis H. Nadeau, local army recruiter.

Army technical schools offer a wide variety of subjects to seniors who want to further their educa-

tion. Training in electronics, administration, printing, chemical laboratory, automotive, surveying and medical care are only a few of the courses in the graduate specialist program.

High school seniors may learn more information about this valuable program by contacting Sgt. Nadeau at the Army Recruiting Station located at 475 Essex st., Lawrence.

Arthur Bliss is building a camp at Stimson's Pond in Boxford.

The Andover Village Improvement Society is again this year offering to pay youngsters at the rate of 10 cents per 100 belts of tent caterpillars. The offer remains good until May 1, or may be withdrawn if spring season comes much earlier. The caterpillars are to be turned in to the schools.

Joseph Sheppard of Lawrence defeated Arthur Mitchell of Andover in a race between Ballardvale and Andover, by nearly two minutes.

Next Monday evening in the lower town hall there will be a frank and open discussion of the proper studies for the Andover Schools.

25 Years Ago — March, 1934

Andover faces its highest tax rate in history, following appropriations totalling \$573,128.83 at the annual town meeting. The new rate will be \$29.50 per thousand of valuation. Expenditures increased this year by \$50,000.

The Selectmen, sitting as a licensing authority, have decided not to grant any licenses for the sale of hard liquor to restaurants. The sale of hard liquor will be allowed in clubs and hotels, the Board decided. Although the town voted for the hard liquor at the election, the Selectmen have the power to control the issuance of licenses. A recount on the question was held last weekend, with the 11-vote margin for hard liquor being reduced to eight votes.

One police officer will be named shortly, bringing the force up to 10, where it stood before the death of Frank M. Smith.

A new Athletic Association to promote all sorts of athletic activities in the community will be formed tonight at the VFW hall.

One of the most controversial issues at town meeting will be the proposal to assess 100 percent betterments against abutters when a sewer is constructed in a street.

The annual Irish Revue by students of St. Augustine's School will be held Sunday night in Memorial Auditorium. The event is held each year near St. Patrick's Day.

Chief George Dane has asserted his belief that the parking meters, installed now for six months, have helped greatly in reducing traffic problems. They have also been responsible for better safety, he stated.

Dollars and Sense

\$2 MILLION SAVING TO MASSACHUSETTS TAXPAYERS

Massachusetts recovered over \$2 million in the fiscal year ended June 30, 1958 from the estates of old age recipients — more than twice as much as was recovered in the 10 year period Jan. 1, 1940 to Jan. 1, 1950. During 1958 actual recoveries totaled \$2,045,000 as against \$810,000 during the 10 year period.

The tremendous increase is due to enactment of a painless but stronger lien law in 1951. It was recommended by the Massachusetts Baby Hoover Commission and vigorously supported by the Taxpayers Federation.

Since January 1952 when the new law went into effect, recoveries to date (Sept. 30, 1958) total \$11,127,000. Another substantial saving, although difficult to appraise but certainly attributable to the lien law, is the number of would-be recipients who have left or stayed off the public assistance rolls. It is a matter of record that in the first six months of the new law nearly 3,000 individuals requested that their names be removed from the rolls.

Here, then, is further proof that sensible laws and proper public administration can protect the taxpayers' interest.

The company will start work later this month to complete the decking and railing of the bridge. The contract for the work also will include completion of eight tenths of a mile of roadway between the bridge and the intersection of Routes 110 and 113 (Haverhill and Lowell streets) in Methuen.

Which HURTS You Most?

Most of us have a sensitive pocketbook nerve. Would it hurt you any less to lose \$10,000 in a damage suit that went against you than it would to have to pay out that much to repair the damages of a fire? We doubt it. That's why we think you should investigate a Home-owners policy that protects you against most any kind of loss and saves you money, too.

Chevy stops quickest... goes farthest on a gallon!

Chevy showed the best brakes of the leading low-priced three in a test of repeated stops at highway speeds conducted and certified by NASCAR*. Chevy also won over the other two in a NASCAR economy run—with the highest gas mileage for 6's and V8's at cruising speeds of just over 55 miles an hour.

Here's a car that knows how to get the most out of a gallon. And it's the only car in its field to bring you hydraulic valve lifters in all popular engines—6 and V8. This means smoother, quieter performance for you.

There are many other advances just as fundamental as the efficiency of Chevrolet's engines and the depend-

ability of its new brakes (with more lining area than any other low-priced car). But why not stop by your dealer's and let Chevy do its own sweet talking!

New Insurance Council To Study All Town Insurance Coverage

The Selectmen have appointed an unofficial, advisory insurance committee to advise the Board on insurance coverage of all types for the town. Named to membership on the committee were Douglas Howe, Richard Lally, James D. Doherty and George E. Haselton. They represent four of the five long-established local agencies, according to the Selectmen. The fifth agency, with resident agent, is the Bernardin Agency and was not included because its owner, Eugene A. Bernardin Jr. sits on the Board of Selectmen.

The new committee's function will be to study and recommend, but it will have no authority to bind the town in any way in the purchase of insurance. Although the group will study all insurance coverage, one of its primary duties will be a discussion with representatives of the Town Employees' Association about proposed health and life insurance.

Under the state law accepted at the town election, five representatives of the employees shall be included in the deliberations on insurance for the employees.

Mr. Bernardin, recalling his pre-election promise not to share in the proceeds of town insurance while a member of the Board, agreed with the other Board members that any advisory group established now should not include his agency. He told the Board, however, that many advantages can come out of such an advisory group.

Bernardin explained that a group of agents, all competitors, would strive towards recommending the best possible insurance protection for the town at the lowest possible cost. He felt that the study of this group might lead to a better understanding of the protection now afforded the town and offer possible ways to improve the coverage.

Other members of the Board agreed that it would be helpful to have experts in the field study the health and life insurance coverage to be provided for town employees would be valuable at this time.

And they felt that a study of the health and life insurance coverage to be provided for town employees would be valuable at this time.

LIVINGSTON ESTATE

Value of the estate of Porter I. Livingston of Andover is \$46,950, according to an inventory filed in the Registry of Probate. He had personal property worth \$2775, it was stated, and realty appraised at \$44,175.

Mr. Livingston, who died last Oct. 12, bequeathed all of his possessions to his widow, Mrs. Helen C. Livingston of Lowell.

Legal Opinions Set Stage For Action

Opinions by Atty. Fredric S. O'Brien, appointed town counsel by acting manager Victor Mill Jr., set the legal stage for the newly-elected Board of Selectmen to move forward in the direction of the municipal government.

Mr. O'Brien's statement of findings, referring to various boards and officials, follows: "You have posed certain questions to me in my capacity as official legal adviser to the Board of Selectmen. I present herewith the statement of the questions as I understand them and also my answers.

"You requested from me an opinion about the status of and the composition of the Planning Board and the Board of Public Health. Neither of those boards is subject hereafter to election under the provisions of the Town Manager Charter, (Acts of 1956, Chapter 571). Both of such boards are subject to appointment by the town manager under Section 3 of the Charter.

"The Charter provides, in Section 2, 'The term of office of any person elected to any office, board, or commission existing at the time of such acceptance and terminated hereunder shall continue until such first town election and until the appointment and qualification of his successor, if

TOWN MEETING OVER QUICKLY

(Continued from Page One)

A Taxpayers' Association amendment requiring the Appeals Board to make a finding on the economic value to the town of any contemplated apartment project. The amendment would have had the Board determine whether the project was good or bad financially, as far as taxes and financial benefit were concerned.

Re-zoning of an educational area off Elm st. for Merrimack College also was approved, as was the Planning Board's request to join a Greater Lawrence planning project.

The voters turned down, however, Guy B. Howe's petition to re-zone land at Ridge and School sts. from residential to industrial.

Vets Quarters
It took strong appeals from Veterans' Agent Francis P. Mar-

key, Thomas Eldred and other speakers to persuade the voters to appropriate \$2,700 to pay for rental of veterans quarters.

One resident took the microphone to object to the Disabled American Veterans collecting town money for their quarters, when operating a liquor license on the premises. He urged the voters to turn down the entire amount, that is used by all three organizations. By a huge voice vote, the meeting followed his motion.

But the Selectmen moved for reconsideration, explaining that only the DAV operates a bar.

Mr. Markey and other speakers pointed out that the law allows a town to pay for the rental of quarters, that the veterans perform many services for the town, and that the DAV allowance for rent does not cover the full cost of renting the quarters.

A suggestion to reduce the appropriation by the amount paid for the DAV quarters was not voted upon and the entire amount was appropriated.

Selectmen's Salaries
A Taxpayers' Association move to reduce the amount of Selectmen's salaries, from \$1000 to just over \$500 was soundly defeated.

The Association moved to reduce the appropriation, after reading a list of salaries paid selectmen in other towns with the manager plan.

John N. Cole III took the floor to urge the larger amount, claiming that it is little enough to pay for the amount of work and time involved in the job this year.

Appropriated \$12,000

Another suggested reduction in appropriations, this one involving the special article calling for \$12,000 for a town manager's salary, expenses and clerical help, was defeated.

The Taxpayers' Association moved to appropriate \$9,000 on the grounds that money for clerical help and office expenses was already included in departmental budgets in a sufficient amount to meet needs during 1959. The Association said that the \$9,000 would be solely for payment of salary to the manager.

But the Selectmen and members of the Finance Committee spoke favorably on the entire amount, with some speakers urging the voters not to restrict the action of the Board of Selectmen when hiring a manager.

The amendment was beaten and the full amount voted.

Other major projects approved, all according to the Finance Committee recommendations, was the library expansion, a water main extension from Elm st. to Haverhill st., and various amounts for new equipment. Three new men were voted for the Fire Department and three were approved for the Police Department, plus two additional crossing guards.

Wedding...

WILKINSON - DOUCETTE

In Christ Episcopal Church, at a 4 o'clock ceremony Sunday afternoon, March 8, Miss Eleanor Farnum Doucette, daughter of Mr. Charles E. Doucette of Westford, and the late Mr. Doucette, became the bride of David Kenneth Wilkinson, son of Mr. and Mrs. Irving J. Wilkinson of Andover. The Rev. Frederick Hill officiated.

The bridegroom's father, who is church organist, played incidental music as well as the traditional wedding marches.

Mrs. Richard H. Graves of Baltimore, Md. was matron of honor for her sister and the bridesmaids were Carole Taylor of Devon, Pa. and Miss Jackie Hamilton of Hamilton.

Ronald Stevens of Milton was best man and the ushers were Richard H. Graves of Baltimore, Fletcher Adams of Plymouth, N.H. and Wesley Wick of West Palm Beach, Fla.

Given in marriage by her uncle, B. Alden Farnum of North Andover, the bride wore a floor length gown of winter white silk tulle designed with a sweetheart neckline in a tucked bodice. Her elbow length veil of imported silk illusion was attached to a pearl trimmed lace cap and she carried a Colonial bouquet of white roses and Stephanotis.

Her attendants wore similar aqua afternoon frocks with matching headpieces and carried silk fashioned bouquets of white flowers in contrasting tones.

A reception was held in the parish house. After a trip to New Orleans, La., and Mexico City, the couple will reside at Port Sulphur, La.

Both the bride and bridegroom are graduates of Pynchard High School. The bride was graduated in June from the University of New Hampshire where she was a member of Chi Omega sorority and she has been employed by the Raytheon Mfg. Co. Mr. Wilkinson is a graduate of Bates College and is a geological engineer.

2 Appeals Were Denied By Board

The Board of Appeals has denied two petitions for variances to the zoning law to allow building houses on lots smaller than required by zoning by-laws.

Raymond LaPointe had asked permission to sub-divide a lot with frontage on both Topping and Juliette st. The Board found that the resulting lots would be smaller than required and would be detrimental to the neighborhood.

Joseph and Jacqueline Gaudin made the same request for lots they own on the same street. Their petition was denied for the same reason.

Personal

Miss Jacqueline Desmet returned to her home on Williams st. after spending the weekend in Annapolis, Md.

The most effective way to stop a car on a slippery surface and still maintain steering control is to pump the brakes rapidly.

Always keep a window open slightly when driving to ventilate the car and lessen the danger of carbon monoxide poisoning.

WHY?

Do We Say "Tickled to Death?"

When we are pleased with an event in our lives, we say we are "tickled to death." But early Chinese used to tickle the bare soles of their prisoners in a form of torture that often resulted in death from hysteria.

Celebrate Girl Scout Week

LOADING UP WITH COOKIES — Girls of Troop 123, led by Mrs. Donald Bacon, picked up their Girl Scout Cookies Saturday at Mrs. Bacon's home. Seated are Ruth Anderson, Janice Legendre, Heather Buchan, Linda Sagaser and Susan Wetmore. Standing are Susan Paulekas, Anne Bacon, Jacqueline McGinty, Lynn Deyermond, Anne Elizabeth Lamb, Eileen Cavellier, Geraldine Noss and Mrs. Bacon. (Staff Photo)

Over 500 girls and 100 adults in Andover are observing Girl Scout week from March 8-15. The annual sale of Girl Scout cookies is being carried on during this observance. This is the only fund raising event to support the Girl Scout camp located on Pomp's Pond.

The Greater Lawrence Girl Scout Council looks with pride on the Andover Neighborhood Association, under the direction of Mrs. John W. Hart. In just two years, this community has realized a growth of 33 percent to a total of 26 troops, which are meeting in the elementary schools, churches and youth center. Continued growth is expected as the number of school children increase.

Miss Emily Heald, general chairman of the 1959 Cookie Sale, has announced that Andover girls have sold 8,796 boxes, which is slightly under last year's record. However, when the second order is completed March 20, it is expected that this number will be greatly increased. Mrs. Donald Sagaser of Holt rd. has been general chairman for the Andover district, assisted by Mrs. Krauss at the West Center School; Mrs. Broucks at the South School; Mrs. Lindholm at St. Augustine's; Mrs. Johnston and Terry Stewart at Central School and Mrs. David Fox, South Church and the Youth Center.

CHURCH NEWS

The very lovely flowers on the Altar of the West Church were the gift of Mr. and Mrs. Richard Baker in memory of Mr. and Mrs. Archie West.

Needs Access To Route 93

That old stumper — an access road from Lowell Junction onto Route 93 (Rt. 28) — is with us again.

Reichhold Chemical Co. in the Junction has asked the Selectmen to see what can be done about getting an access, perhaps just going north, onto the new highway.

At its meeting Monday night, the Selectmen decided to take the matter up with the Industrial and Development Commission as soon as possible. But members agreed that former efforts to persuade the state to provide for the access were unsuccessful and wondered what good it will do to ask for the road now, to benefit the lone industrial user in the area.

Reichhold, according to Dr. A.L. Wooten, division manager,

will have a serious difficulty when the Ballardvale Bridge is closed down for reconstruction.

Trucks from the company's plant in the Junction probably would not be able to use the new highway at all, he surmised, during the period the bridge is closed. And when it is open, trucks will have to travel up River st., across the bridge, to

Dasecomb rd. interchange.

He suggested that an access to the highway, at about the location of the present construction access road, would give vehicles a chance to get on the highway. They could drive to the nearest interchange to alter direction, Wooten continued.

The problem of an access at the Junction isn't new.

Town officials, and those from neighboring towns, wanted the road planned that way in the beginning because industrial land in the Lowell Junction and Tewksbury areas would open up if the road was there. But the state said this couldn't be done.

The best the state could do at the time was to promise to take another look at the area in a few years and see whether potential use of an access was great enough to warrant building it then.

PERSONALS
